## R&D PROJECT MANAGER (M/W)

---

**Bringing light to custom, complex or extreme environments is the challenge taken up by the company SEDI-ATI and its employees.**

### The meaning

For more than 50 years, SEDI-ATI Fibres Optiques has been designing, developing and manufacturing fiber-optic components and assemblies to meet the many societal challenges. Located at Evry-Courcouronnes in the south of Paris region in France, SEDI-ATI exceeded, for the first time, turnover € 6 Million with a team of around 50 people.

Whether in space with the laser triggering of the different stages to the satellites of new launchers, in the nuclear industry with analysis and treatment of waste, in industry with laser cleaning or cutting, or in medical with vein treatment, SEDI-ATI is at the cutting edge of technology.

All these applications require not only the implementation of disruptive technologies but also the dexterity and expertise to make meticulous and complex objects.

### The position

Reporting directly to the R&D Director, you will join a team organized into 3 poles: Projects – Design – Prototyping & Technology. Your contacts will be both internal and international.

You will help analyzing customers specifications and you will propose adapted solutions based on optical fibers. You will lead R&D projects by relying on both the Design teams and the Prototyping & Technology teams.

### The desired profile

Trained as an engineer in optics, photonics or optoelectronics (Sup Optique like) and with at least 10 years of experience in the industry, complex assemblies based on optical fibers have no more secrets for you.

Agility and autonomy complement your taste for technological, human and societal challenges in an international environment.

A week of 4 and a half days (free Friday afternoon) will allow you a better personal well-being: all this for a salary range of 60 to 70 k€ annually, depending on experience, plus a profit-sharing and participation bonus.

**You wish to live a luminous adventure in the infinitely small for the infinitely large, join us!**

**Send your application and resume to: [jobs@sedi-ati.com](mailto:jobs@sedi-ati.com)**
